

Impact Summary

Awakening Acts is a community outreach ministry providing consistent, relationship-based services in and around Baltimore and the surrounding Maryland region. Our impact is rooted in long-term presence within underserved communities, where trust is built through reliability, respect, and ongoing engagement.

Our outreach serves seniors, individuals with disabilities, and community members facing barriers to access, including transportation limitations, social isolation, and material hardship. Services are offered openly and without discrimination, with spiritual activities available only upon request.

Impact is demonstrated through:

- Repeated outreach in the same communities over time
- Transportation assistance supporting access to services and community participation
- Distribution of food, clothing, and essential supplies
- Reduction of isolation through fellowship and consistent presence

Programs such as **HopeRide Community Transportation** expand our ability to provide safe, dignified transportation that supports independence, access, and quality of life. Resources are stewarded carefully to support direct service and measurable community benefit.
